

We developed your valuable equipment to resist biggest forces of nature during it is protecting the user. Therefore it is worth to also keep your pre-mounted equipment ready to start and clean while transporting it under protected conditions to the point of action, to serve there perfectly. Our standard hard-cover case fulfils all important basic needs to protect your equipment during transport and storage.

Design Features

- Room for one fully equipped SCBA with one 6.8l cylinder including mounted mask with demand valve and additional equipment e.g. like the monitoring devices of the *alpha Personal Network*
- Simply and safely stackable with design integrated snap points on front and back side
- Dedicated smooth outside areas for stickers and individual labelling
- Outer dimensions are suitable for efficient storage schemes on euro pallets

Stable and Rugged Construction

- Thick, robust and UV stable plastic shells
- Metal buckles and inherently stable hinge-joints, with ca. 185° opening angle to avoid overexpansion (proved in diverse endurance tests)
- Two big handles for usage with gloves, to carry or pull
- Stable standing feet with integrated bumper area for pulling with corner handle
- Integrated frame to block rough dust or splash water

Technical Data

| | |
|---------------------|----------------------------------|
| Size outside | 700 mm x 300 mm x 520 mm |
| Weight | 4.8 Kg |
| Colour | Black, with metal buckles |
| Material | Plastic, UV stable, RoHS conform |
